USPTO MAIL ROOM

### SUPPLEMENTAL PRELIMINARY AMENDMENT

Commissioner for Patents  
Washington, D.C. 20231

Sir:

Prior to examination of the above-identified national phase patent application, please amend the application, as follows:

1. A method for determining volumes in a human or animal body, comprising the steps of:  
a) providing a probe having a probe tip and a probe shaft, the probe tip being adapted to be inserted into a body cavity; and  
b) applying a signal to the probe tip, the signal being transmitted through the probe shaft to the probe tip, the probe tip being adapted to receive a signal from the body cavity; and  
c) receiving a signal from the probe tip, the signal being transmitted through the probe shaft to a receiver, the receiver being adapted to receive the signal from the probe tip; and  
d) processing the signal received by the receiver to determine a volume in the body cavity.
